A. General

1. USA Softball of Iowa classification philosophy is our mission is best achieved by grouping together teams within our state who are similar in caliber to one another.
2. In judging teams, we examine their ability to compete within that class and not their ability to win that class in USA Softball Championship play. Teams are to be classified at the highest possible classification level using this standard.
4. Team classification shall be based on the roster that is submitted and the make-up of the classifications of those players on the roster as determined by the USA Softball Player Classification Database.

B. Classification Board *(back to Table of Contents)*

1. The Classification Board shall be appointed by the USA Softball of Iowa Commissioner and will consist of District Player Representatives and District Commissioners.

Meetings: The Classification Board will meet at any such time as deemed necessary to hear all appeals and review all classification appeals of players in order to submit a local recommendation to the National Slow Pitch Player Classification Board.

Authority: USA Softball of Iowa will designate a Classification Board to evaluate, classify and review team competitive levels according to the classification guidelines. The Classification Board shall have the authority to act on the following:

1. Classify players and teams prior to the beginning of the regular season play based on past performance and current season roster.
2. Review players and teams for possible reclassification prior to the appropriate USA Softball deadline.
3. Hear properly filed appeals of players and teams on their classification status by the appropriate USA Softball deadline.
4. Develop additional guidelines and regulations as the need arises.

Board Objectives: To determine proper athletic proficiency for teams, the Classification Board shall be limited to an overall comparison of all teams within the state and their finish in invitational, state and national tournament play in USA Softball or any other Softball organization.

C. [Player Classification Appeals](#) *(back to Table of Contents)*

Players classified in accordance with this article have the right to appeal their player classifications on the [USA Softball National Player Classification Database](#). The State Classification Board will assist the National Classification Board for Adult Men's, Women's, and Co-Ed Slow Pitch by providing information to assist in these decisions. When called upon to make a determination regarding a player classification USA Softball of Iowa officials will examine a variety of factors including but not limited their history in USA Softball championship play, history with other associations, softball skill level and past athletic accomplishments outside of softball and to the National Classification Board for final review. All appeals must be submitted by the player through the USA Softball Player Classification Database manager. Players should submit the following information when appealing their classification:

1. A brief statement stating the reason for the appeal. (i.e. playing ability and skill level, change in that skill level due to age or injury)
